

Tutorial on how to find and provide Slack credentials for your repository

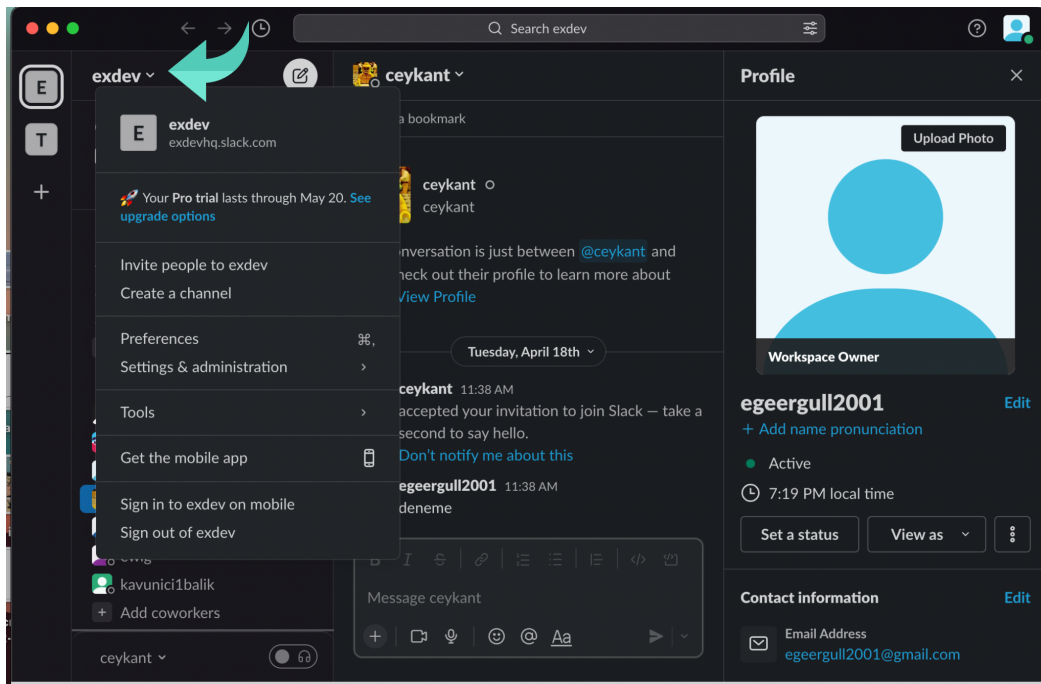

Step 1

Open your Slack workspace.

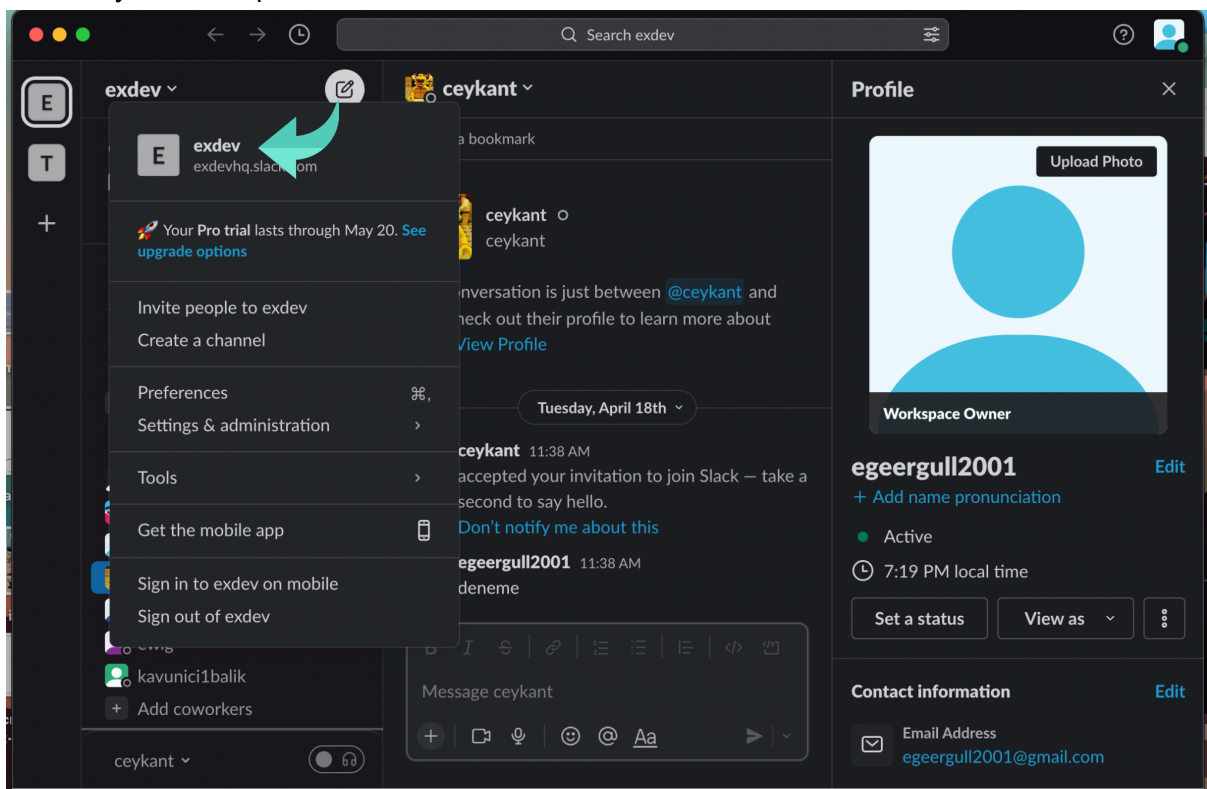

Step 2

Open up the menu for your Slack workspace by clicking the arrow pointing down.

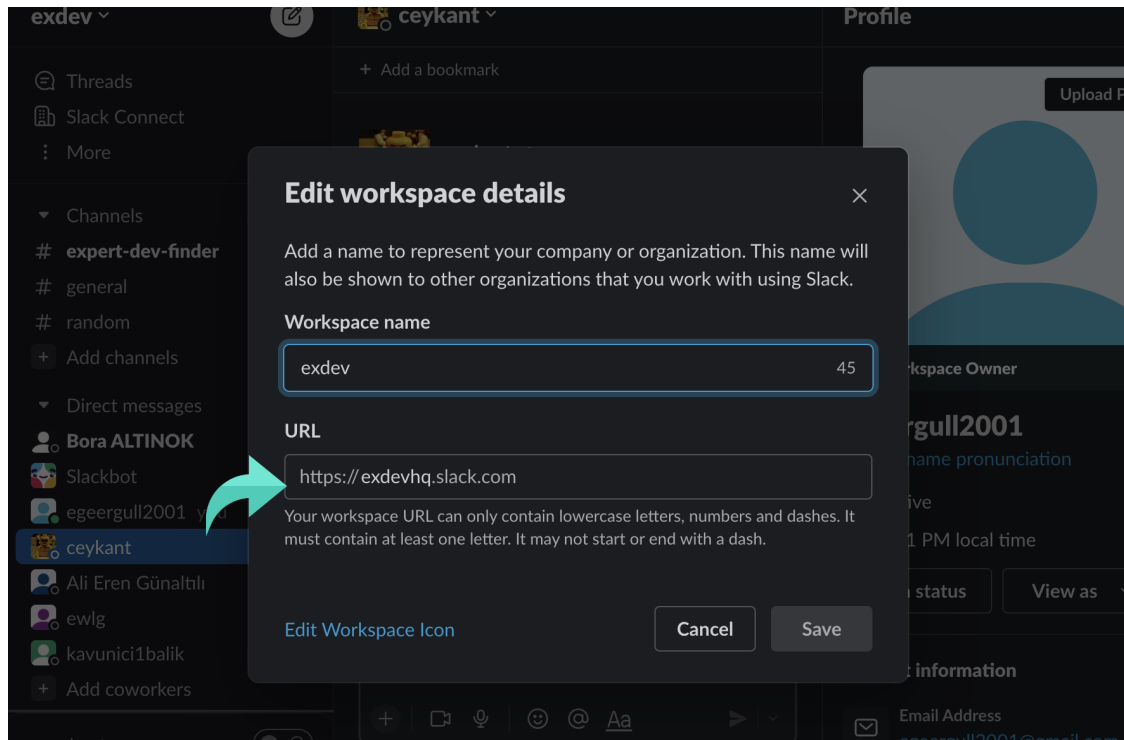

Step 3

Click on your workspace.

Step 4

Copy the URL.

Step 5

Paste this URL to the Slack URL field.

Create Repository

Repository URL *

Shared Pass *

Does this repository has a relevant Slack Workspace? No ☐ Yes ☒

Enter your repository's Slack URL and your Slack member id for that workspace. Don't know where to find these information? [Look at this demo.](#)

Slack URL *
exdevhq

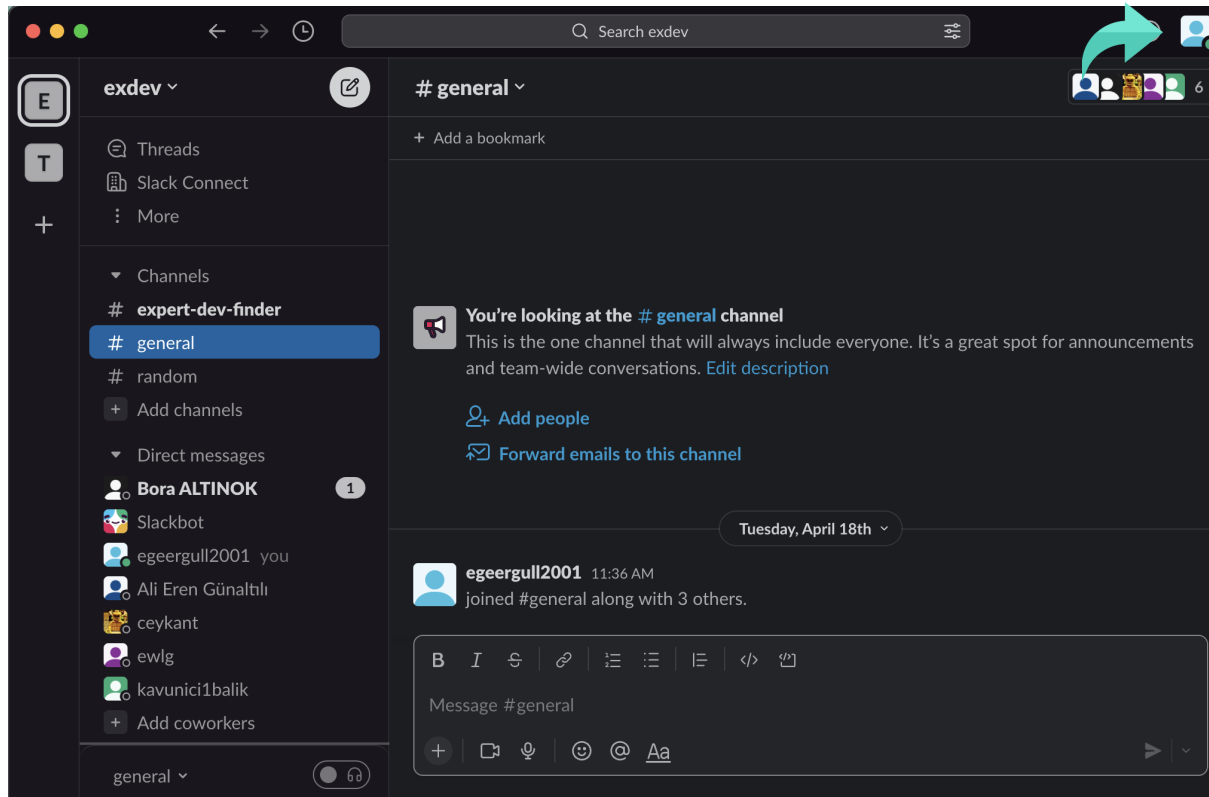

Slack Member Id *

SELECT BRANCH

CREATE REPO

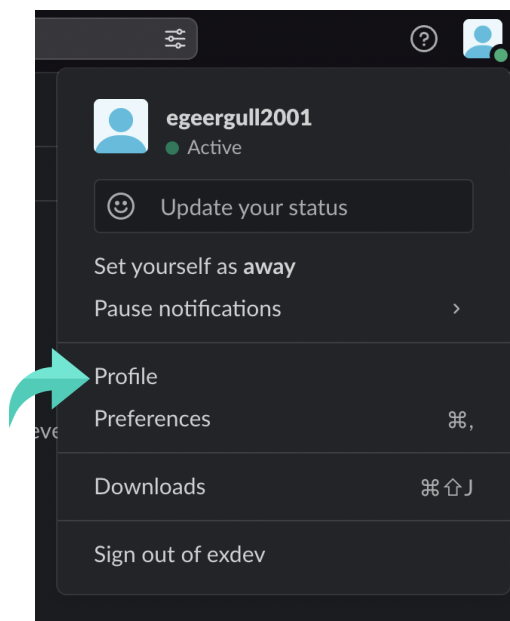

Step 6

Find your Slack Member Id. For this, open Slack. Then click on your profile button located at the top-right corner.

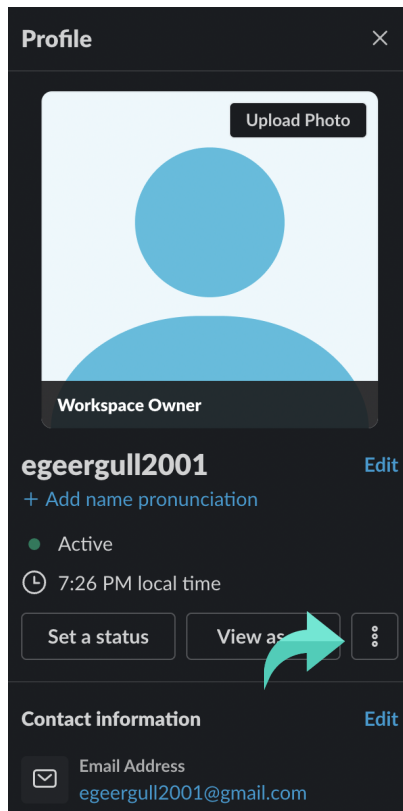

Step 7

Click on "Profile".

Step 8

Click on the vertical three dots

Step 9

Copy your member Id.
